Topic	Area	Key Deliverables 2021-22	Burn Care Standard / Key Performance Indicator	Lead Network	Owner or Contact	Description	Methodology / Key components	Expected Outcome	Start Date	Expected Competition Date	Network Implementation PROGRESS RAG STATUS	Implementation - PROGRESS Commentary
1	Clinical Governance	Refresh of Adult Service Specification	C.02 (Access to Critical Care) E.04 (Admission Policy) E.09 (Transfers) F.05 (Activity Levels)	LSEBN	Pete Saggers	Review and amend the existing Specialised Burn Care Specification	Establish a short-life Task & Finish Group, with surgeon, anaeathetist/intensivist, nurse, therapy and psychology representation from each of the four burns networks to refresh the existing all age specification, to ensure it reflects the new paediatric specification	Present the final draft document to the NHS England Major Trauma & Burns Clinical Reference Group, to inform the commissioning arrangements for specialised burn care.	Jul-22	Sep-22	**GREEN**	
2	Patient Experience	National Patient Reported Experience Measures (PREMS)	A.09 (PREMs)	SWBCN	Sharon Standen	Establish a national template of PREMs that can be used across all burn services to incorporate patient experience into service improvement/development projects	Task & Finish Group made up of MDT disciplines from across four networks. Review literature and existing PREMs. Develop a core questions that all services use within PREMs that can be adapted to local environments	A bank of Burns PREMs template that can be used across all burn services which include some mandatory core questions.			**GREEN**	
3	Clinical Governance	Audit of ECMO outcomes and numbers with a view to developing indicators for ECMO referral		LSEBN	Pete Saggers Isabel Jones	A review of ECMO referrals over the last three years.	Collect data on ECMO referrals - outcomes and numbers over the last three years. Align data fields with ECMO audits	Indicators for ECMO referral			**GREEN**	
4	Clinical Governance	Audit Review of primary / secondary transfers to and between burn care services.	E.09 (Transfer of patients between burn care services)	LSEBN	Pete Saggers Alexandra Murray	To undertake a prospective audit of patient transfers for centre-level care (Adults and children)	NATIONAL STUDY. All / Networks and services to undertake the prospective audit for travel / transfer times and the impact on patient outcomes. Prepare an audit template that can be used across all of England and Wales. Presentation to the NBODNG for full roll-out nationally.	Improved evidence for outcomes, related to early and / or direct transfer to a specialised burn service.	Aug-22	Audit completed 31 January 2023 Report to NBODNG and National Audit meetings.	**GREEN**	

5	Education & Training	Develop a National Burns Learning Hub	Network G.07.D Education and training for burns and non-burns healthcare professionals.	SWBCN	Sharon Standen	Develop a package of training for non-burns healthcare specialists involved in different stages of the burn care pathway from emergency response to rehabilitation in the community	Develop a Task & Finish Group with representatives of MDT disciplines across the Networks. Review education and training already provided. Develop a Burns Learning Hub linking to existing e-learning, new content and simulations as required.	Improved assessment and management of burns. Improved care in primary and community settings. Overall, better outcomes due to correct interventions before and after specialised burn care.	Jul-21	Jul-22	**GREEN**	
6	Clinical Governance	End of life care	E.12 End of Life Care	SWODN	Sankhya Sen Nicola Mackey	Development of a small Task & Finish Group, to review the cases presented at the 2021 National Mortality Audit and to make recommendations on a future burn's pathway.	T&F Group to be supported by the ODN Team. Membership to include relevant members of the MDT and all networks to be represented.				**GREEN**	
7	Clinical Governance	Nexobrid		LSEBN	Nicole Lee	Development of a small Task & Finish Group, to review the use of Nexobrid and to make recommendations for a standardised approach to using Nexobrid.	T&F Group to be supported by the ODN Team. Membership to include relevant members of the MDT and all networks to be represented.				**GREEN**
